

Concord Feb 4th / 86

Dear Dr Hill

Your kind note
of Jan 28th was received Sunday
through the kindness of Mrs
Eames. I was so impatient-
to know the contents that
I opened & read it while
walking home to the great
danger of slipping down.
The pavements are covered
with ice.

How much I wish that
Mr Burt would be appointed

so that we could go with
you to Athens & I know that
it is not your fault that
he has not been appointed.
I received a letter from Mr
Binet dated Dec 24th & he spoke
of his health having improved
so much, his throat did not
trouble him & I really am
glad he did not stay here
this winter, he also spoke of
the members of your family
they were so kind to him &
did all they could to make
him comfortable. I think
he likes Athens very much
but he misses the children
and is so anxious for us to
come with you if possible.
but I fear (if we go) that we

shall be a great-care for you
& your Wife..

I should have written you
before but have been waiting
to get the children's pictures
taken to send you, something
has prevented every time I
had them ready, perhaps we
would have a cold or another
a sore face ~~or~~ today the snow
has fallen thick & fast so that
I could not take them out;
I hope to have them for you
before you leave.

If we should go out with
you, please write me if I shall
have my Melodeon, Sewing Machine
box of books & several other boxes
go with me or shipped from
Boston.

I had a pleasant call at-
Mrs Carnes Tuesday morning, they
were both well, I have become
very much attached to them as
they are very kind to me.

I shall hope to hear from
you soon. Love to Mrs Hill
as yourself.

Yours very truly
L. Bunt-
