

38 East 22^d Street
21st Dec^r

Dear Dr. Will

I have been wishing
to come to see you ever since we
heard of your accident which
we did not know of till some
time after it happened. I have
been much occupied lately
& only went out on household
business - I hoped every day
to fulfil my desire to go myself
to inquire for you. I was cer-
tainly a most unfortunate ac-
cident. When you had been so
well all the time you was here

All of us have felt great sym-
pathy with you, & were glad
to hear that you were recovering
as satisfactorily as could be
expected. I was fortunate
that you were the guest of such
kind friends as Dr. & Mrs. Morgan
& their family. I am afraid
that dear Mrs. Hill will feel
much anxiety about you, but
I hope it may not be very long
before you can join her. —
When you write to her or meet
her, please give her a great deal
of love ^{from me}. — How much sym-
pathy I feel for her —

The last few weeks I hoped I might see you
before you leave New York but if I should
not be able - except by my kind regards - making
best wishes for your stage & comfortable passage
& your safe return to your adopted country.

May God bless you & dear Sir Will,

Your affectionate friend

M. A. Potter

The Bishop sends

his love & has been
trying to find time
to call for you
