Rev. S. G. Gill - O. O.

W

Athens

I am much obliged for the
 it contained for December 12th 1852
 & am much obliged for the
 same share the Dec 1852
 since then been only received
 the Lloyd's Journal and very
 important, unfortunately
 there is no other great con-
^{but} munitation with others by
 that amongst the means
 as you remark the want of
 competition is one great cause,
 but the very great increase
 the large number of goods
 have to carry has much to do with
 the thing.

Yours truly
 J. G. Bell Esq
 Dec 19th 1852

have at one time as the
proverb has it - Here however
they attain their aim much
better than a hunter does -

I did not answer to your
note until I got the seeds of
Cassaba melon you desire me
to send you - To have them good
& from the place itself I have
requested a friend of that
place to choose them for me
& I just received a few oaks of
them - The expense is trifling
& I beg you will accept them -
If you have too much, may
send some to my uncle Mr.
De Heidenstam for his country
seat, trusting the Bandidi
will leave you the opportunity
of eating the grown fruit,
please God & His good Providence
to whom we owe life should
scatter upon excellent blessings.

A bag containing that
seed I have put in a small
Box marked JHH & send it
by the Austrian Steamer from
wants of others as per enclosed
Bill of Lading -

Dispose of my little sowins
whenever they can be useful
without thinking of giving me
trouble; it is my pleasure to
be useful when I can, or
rather I would say displeasure
to me -

Believe me, my dear Sir

Yours faithfully

R. S. Mendenhall
