My dear Dr. Still

A person on board the
Andes Liverpool Steamer going on
to join the whales tells
me that a daughter of Mr
Merrison is on board going to

join you. I saw this
note by her: I hear that
Mr Saunders has taken the
young lady under his protection

To, you caught the Adamb at
Syre (so he told me) but
you must not expect to get
off that way! We have all
been rickety so the certainty
of seeing you when he came
to his Quarry, here is rather
hazy. It is hard to tell
he however he fully
expected you would come here.
Do come & time it for
the College examination which

is about 20-22? Just

Did the Philadelphians write
you for your (Christian name?)
He has arrived at the
School: but none of us
has not seen Mr. Lander's card
from the Sch. It
is for the power of
Attorney.

Also we want the name
of Mrs. Little Black: ~

date of his death. I
think he had no other
name than Armitage (?)

Have you time in such
haste: in the hope to
see you face to face -
Our united kindest regards
to dear Mrs. Hill

Ever & dear Dr
Sincerely yours -
Henry May
