Mr. Geo. J. G. H. H. H.

Dear

Sept. 4<sup>th</sup> 1821

My dear Sir -

You asked my opinion yesterday on the state of Spain & we were interrupted before I could give it you in a satisfactory manner -

I think that the Throne is in imminent danger and that it will fall if some means be

not devised for manifest-  
-ing to the Nation, as  
the opening of the  
Chambers, that there  
is some element of  
order to counteract  
the Particularism and  
Philanthropism  
by which it is now  
haunted.

There is a cotton of  
Particularism & Philan-

Philanthropism around

In Home at this  
moment which pre-  
vents any man of  
other principles from  
approaching it - At  
all events I shall not  
presume to offer  
an opinion, but I  
shall remain a silent  
watcher as a report to  
my Lord the <sup>sad</sup> effects  
of its friendly advice  
having been treated

had not been treated  
with discretion this  
other want of their  
moral sense here  
at the head of a  
strong Govt -

The whole matter  
is involved in  
a cloud of darkness  
& danger, and I  
fear it will be  
found out about  
two late but some  
Landlords see as

is not quite so serious  
I am

as the Sect of Chudem.

I tell you my mind  
by one Mr. Hill without  
reserve, because, with  
-out of my regard  
for you & my respect  
for your judgment,  
I feel that there are  
no two persons in So-  
me, considering the in-  
-probability of your pre-  
-serving with such talent & de-  
-votion & success, have a  
better right to be treated  
with civility than you  
& your Mr. Hill - I am
