

Wm. L. Garrison -  
Boston March - 18 - 1854

My dear Mr. Aik

I have ventured to  
your Colt Forester and  
Lady Henry Peppell (man  
and wife) that you and  
Mrs Aik will kindly get  
them in the way of  
employing them such  
stay at Orono & the

great advantage - Mr  
Forester was a Colonel  
in our Army but he  
has retired - Lady Harriet  
is a daughter of the late  
Sir Robert Stoddard &  
I trust you may  
remember her Mother  
being in a visit to me,  
and her Mother being  
in the Prison, was in  
company of the Prisoners

at the time in command  
of the Enterprise - Her  
first husband was  
Lord Henry Popple some  
years ago also remembered  
as a visitor of mine  
at Wotton - My son  
has the admirable picture &  
will be thankful to you  
for my advice you  
may kindly give them -

We are led to believe  
there that the Popples  
intend to say the same he

in force before the annual

simulations which usually

commence towards the

middle of April - It is

to a large extent the same,

but if favored by weather

and visitation of brown

Parula it may become

an embanking one

to Turkey and Wood

defenders - The Commission

between Wolf Farming

of

and Sunday left Paris  
by Highflyer and will  
be arriving in London  
sometime in the  
Empire of Persia's  
ambition to our ultimate  
to me very likely  
for Honor Peace was  
is that the 1<sup>st</sup> or 3<sup>rd</sup> of  
next month -

Since I sent by you  
to William Brown  
I have had a good

Deal of conversation with  
was disappointed and  
other letters to you  
I find that the books  
are done all Europe  
against them in  
their own country  
I mean that which  
a pity it is that they  
should run their  
heads against the  
wall in the way they

do - not seem that the  
means of the Emperor  
of Persia would be  
their own -

With kindest regards  
to all - I am  
believe me
